METcase™ 2007 Aluminum Enclosures Catalog

METcase™ have published their new 2007 Aluminum Enclosures Catalog which details their comprehensive range of desktop, portable, wall mounting and 19" enclosures.

This 28 page color catalog provides design engineers with an invaluable selection of modern, versatile and cost effective aluminum housings. The ordering information, drawings, material specifications and customising options are all set out in a clear and easy to use format.

For the 2007 catalog, METcase™ have introduced three brand new lines: 'MINIMET' small instrument cases, 'DATAMET' wall mounting enclosures and VERSAMET 19" rack cases. The popular 'UNIMET' and 'UNICASE' series have also been extended with a selection of new models.

METcase™ aluminum enclosures are offered in many different sizes and styles, all of which can be supplied fully customized with all the necessary holes and cut outs, silk-screen printing etc., ready for fitting the electronics. Details of the customizing options are also included in the new catalog.

The new METcase™ catalog can be ordered online at:
