TEKO's New 'OVOTEK' Designer ABS Enclosures

TEKO's new 'OVOTEK' cases have been designed for the latest hand-held and portable electronics. These stylish plastic enclosures feature advanced ergonomics for comfortable handling and operation of the controls during use. Applications will include remote control devices, peripherals, measurement instruments, and medical and wellness equipment. 'OVOTEK' cases can be used for mobile battery powered devices or as control units cable connected to a machine.

The 'OVOTEK' cases are molded in off-white or black ABS (UL94 HB), have external dimensions of 6.49" x 4.05" x 1.50", and are assembled by four self-tapping screws. Two versions are offered with smooth domed top part, or flat top part with recessed

area for mounting a membrane keypad, 4.3" TFT display or product label. Internal screw bosses are provided in both the top and base for fitting PCBs and keypad assemblies.

The cases can be ordered with or without a battery compartment. Two types of battery compartment are offered which will accept either 2 x 1.5V AA or 1 x 9V cells, or 4 x 1.5V AA or 2 x 9V cells.

TEKO can supply the 'OVOTEK' enclosures with additional holes for push-buttons, connectors and controls etc., plus silk-screen printed legends and logos. The cases can also be molded or painted in alternative colors. Standard prices start at \$19.

More information on these enclosures can be found on TEKOs website at:
