New 2007 TEKO Enclosures Catalog

TEKO have published their new 2007 enclosures catalog which details their comprehensive range of plastic, aluminum and steel electronic enclosures.

This 200 page color catalog provides design engineers with a great selection of versatile and cost effective off-the-shelf enclosures. The ordering information, material specifications and customizing options are all set out in a clear and easy to use format.

For the 2007 catalog, TEKO have added four completely new lines: TEKAM extruded aluminum instrument cases, MINITEKAL miniature aluminum enclosures, OVOTEK hand-held ABS enclosures and MINITEKNET pocket size ABS enclosures. The company have also introduced a large number of range extensions.

The existing TEKO enclosures program includes hundreds of different sizes and styles including keyfob cases, pocket size cases, hand-held enclosures, keypad cases, instrument cases, wall mountable cases, RF boxes and 19" rack cases. All are fully

featured in the new catalog which and can be ordered online at:
