

Multifunction electronic enclosures

Highly innovative modular plastic enclosures system which can be configured to meet all the requirements of today's man-machine interfaces.

- · aesthetic and ergonomic design
- · uniquely, the operator can decide to use the electronics as a mobile or as a stationary unit
- plenty of space for operating elements, graphic displays and touch screens (S: 6.4"/16 cm, M: 8.4"/21 cm, L: 10.4"/26 cm)
- available with either flat or high bottom part for individual installation configurations, interfaces, cable inputs and outputs etc.
- optional front panel styles: ABS cover and flat panel, aluminum front panel and glass panel for touch screens
 - installation of tablets on demand
- protection class IP 54 with sealing gaskets (accessory)
- · internal fastening pillars for PCBs and components
- · ordered as individual components for multiple configurations:
- · mobile (1)
 - with/without battery compartment (5 x AA), accessible from the outside, incl. protection against incorrect insertion as well as anti-rotation device; user-friendly design with attractive flat styling in the handle area; finger recesses on the underside ensure a secure grip
- enclosures with base or flat wall suspension element (2)
 for data transmission and charging the enclosure snaps into base or flat wall suspension element; contacts
 available as accessories; operating panel can be mounted either vertically or horizontally; the
 ergonomically inclined base offers plenty of space for electronics
- desk-top screwed (3)
 operating panel inclined by 20° whether vertically or horizontally mounted; hidden screw fixing; the
 ergonomically inclined base offers plenty of space for connectors and cable glands; rubber feet supplied
 with the case ensures non-slip desktop positioning
- desk-top/wall mounting, secured by latch lock (4)
 unique interface between a stationary and a mobile component; simplified assembly by snap-in interfaces;
 the ergonomically inclined base offers plenty of space for plug connectors, electronics as well as wiring;
 base freely accessible; direct wall mounting of the base; mobile unit can be mounted either vertically or
 horizontally
- installation enclosures (5) if the architectural standards are particularly high, i.e. in historically buildings, INTERFACE-TERMINAL enclosures can also be harmoniously integrated in walls or front panels; installation in plant and machinery is also possible; easy wall installation with installation assembly kit

Applications and Examples

Unique variety of applications: handheld – desk-top – wall mounted – installation. Peripheral and interface equipment, office applications, communications technology, safety engineering, biometrics, medical and laboratory technology, health care, IoT/IIoT, gateways, automation, measuring/regulating/controlling, etc.

Device for bioelectrical patient analysis

Terminal for personnel time recording

Process control for plant Management

Wireless data logger

Self-monitoring emergency call system

Smart Home Console
