

# MOTEC

## Modern desktop enclosures with wide front panels

With its generous dimensions, stylish design and ergonomic control panels, our MOTEC series is designed to distinguish your electronics from more conventional systems.

- stylish range of instrument enclosures
- three plan sizes
- different case heights for individual configurations
- high-quality material ABS (UL 94 HB)
- robust clip-together assembly to minimize your assembly work
- access with flat screwdriver only, for security
- ergonomic, molded sloping control panel with recessed area for a membrane keypad
- aluminum panels ordered separately
- versions with handle for ergonomically tilted position or carrying
- four non-slip self-adhesive feet included
- protection class IP 40
- internal guide grooves for the vertical insertion of partitions and PCBs
- internal screw pillars for PCBs etc.

# MOTEC

## Applications and Examples

Measuring and control technology, feedback control, peripheral devices and interfaces, switchboxes, modems, laboratory equipment, medical and wellness devices, etc.

Rhinospirometer

Telemetry system with cordless sensors
